

Drawing Puzzle Game (Name WIP)

Name: Tanner Andrews

Problem: Create a puzzle game experience that is interesting

Goal

Create a puzzle game with drawing effects as a gimmick

Features:

- Drawing (User input, display, recognizing shapes)
- Effect of drawings (Recognized shapes/patters make something happen)
- Puzzles

Features & Requirements

Drawing

- Allow and display what the user draws
- Read/Recognize the shapes and patterns the user draws

Some effect after drawing

- Appropriate effect happens after shape/pattern is recognized

Puzzles

- Navigation system to select
- Framework for puzzle creation
- Set of playable and reasonably solvable puzzles

Features: 3 Requirements: 6
